

A low-angle photograph of a modern building with a light-colored stone facade and large rectangular windows. The sky is blue with some white clouds. The text "PUBLIC SERVICES" is overlaid in a large, blue, 3D-style font.

PUBLIC SERVICES

Public Works

Water Division

Major Facilities

- Three pump stations (NTMWD, Nortex and Newport Harbor)
- One 750,000 gallon elevated storage tank located on Decker Court
- One 250,000 gallon elevated water storage tank located on South Ballard
- One 2,000,000 gallon elevated water storage in Creekside Estates
- One 900,000 gallon and one 1,500,000 gallon ground water storage tank at the Nortex Pump Station
- One 2,000,000 gallon ground water storage tank located at Newport Harbor.

Priorities

- Operate and maintain the water distribution system
- Administer the Cross Connection Control Program
- Administer the Water Conservation Plan and Drought Contingency Plan
- Administer the Storm Water Management Program
- Repair leaks
- Conduct water sampling
- Valve maintenance
- Routine system flushing
- Submit monthly reports to the TCEQ

The background of the slide features a faded, light blue image of a construction site. A large piece of heavy machinery, possibly a trencher or a similar earth-moving vehicle, is positioned in the upper center. It has large, treaded tires and a complex mechanical arm. Three orange traffic cones with white reflective stripes are placed around the machine: one on the left, one in the center foreground, and one on the right. The ground appears to be a mix of dirt and gravel. The overall scene is dimmed to serve as a backdrop for the text.

Wastewater Division

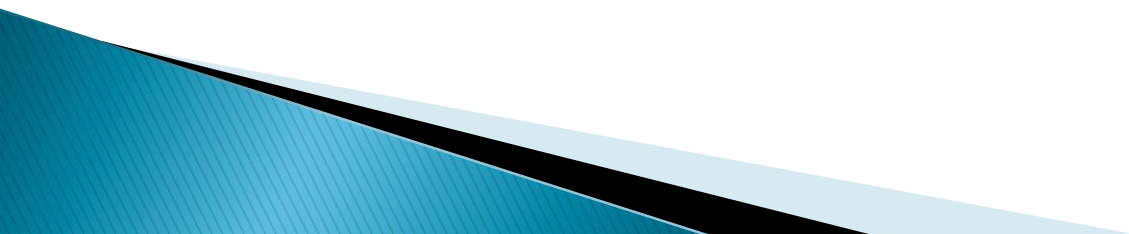

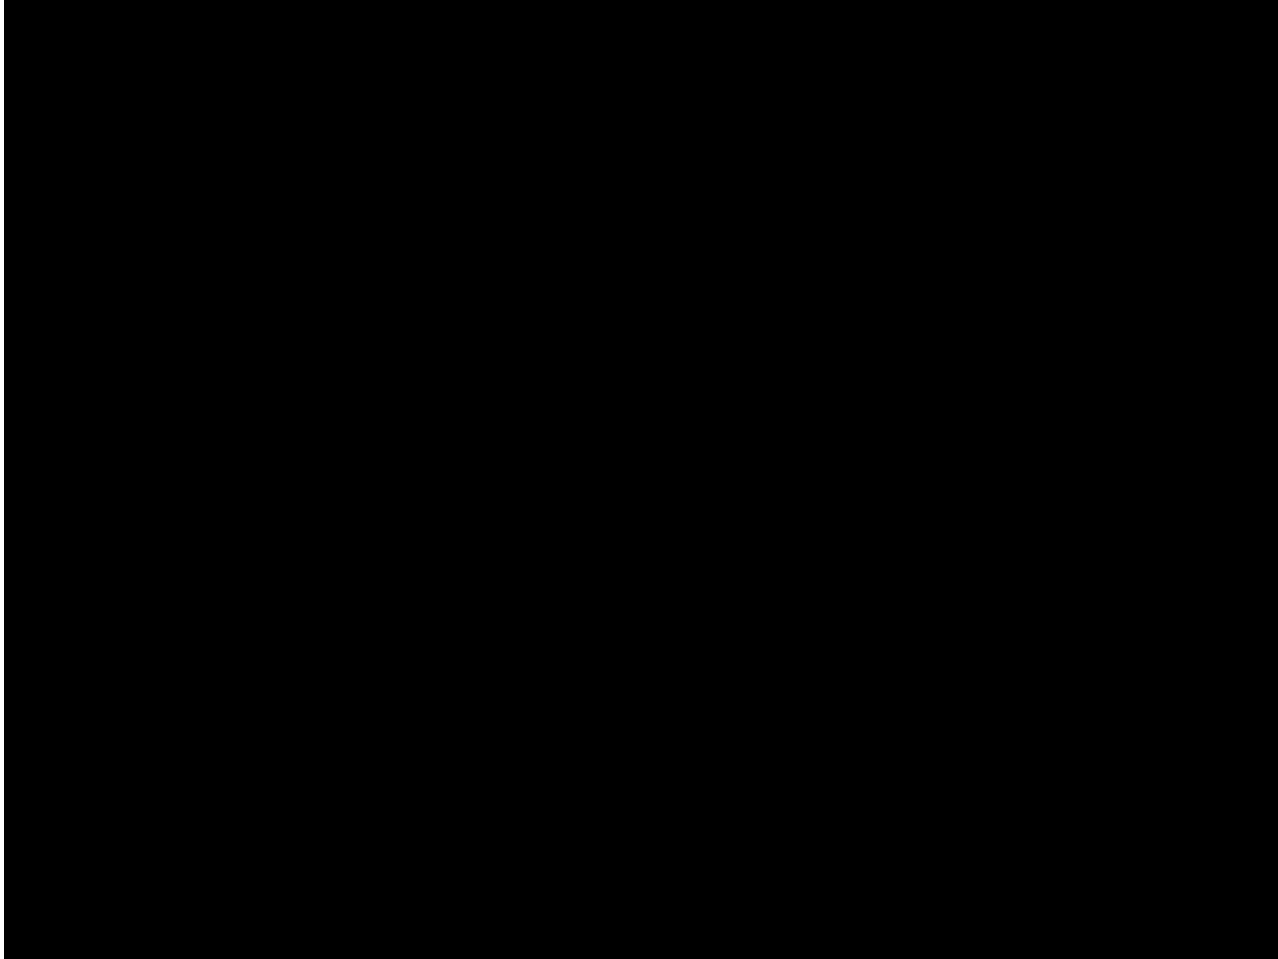

Major Facilities (Lift Stations)

- Twin Lakes
- Redwood on the Lake
- Pheasant Creek
- Windsor
- Harvest Bend
- Rush Creek
- Wylie Lakes
- Watermark

Priorities

- Operate and maintain the wastewater collection system
- Perform manhole/mainline inspection, repair and cleaning
- Clear stoppages
- Perform camera inspection of service lines and main lines
- Use the jet/vacuum truck to perform preventive maintenance city-wide in areas prone to service interruptions
- Assist with Storm Water Management Plan by cleaning storm inlets

Wastewater Division

Street

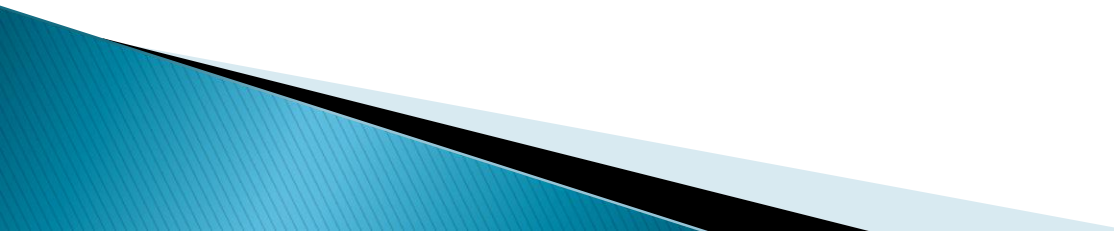

Division

Major Facilities

Street and alley network

- All traffic markings (signs, buttons, striping, etc.)
- Curbs, gutters and drainage ways
- Storm water outfalls

Priorities

- Maintain all streets, alleys, traffic markings, guardrails and school zone flashers throughout the City
 - Repair road surface failures, crack sealing, concrete and asphalt replacement
 - Maintain storm drainage systems (pipes, culverts, channels)
 - Assist Planning Department by replacing and installing sidewalk panels as part of the neighborhood improvement program.
 - Mow grass and trim weeds, brush and trees in public rights-of-way
 - Perform mosquito surveillance, larval control and fogging
- 

Parks and Recreation

A photograph of a park scene. In the foreground, a paved walkway leads to a black metal park bench with perforated backrests. The bench is partially in shadow. Beyond the bench is a large, open green lawn. In the background, a dense line of green trees stretches across the horizon under a clear blue sky. The text "Parks Division" is overlaid in the center of the image.

Parks Division

Major Facilities

- Avalon Park - 1312 E. Brown St.
- Birmingham Farms Park - 725 Odenville Dr.
- Community Park - 800 Thomas St.
